Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest an optical recording medium comprising a recording layer consisting of at least two of Fe, Si and Al. The closest prior art, US 5,549,953 or 6,479,121 disclose recording layers where Fe, Si and Al may be added to other phase change materials. US 5,849,400 and 5,718,812 disclose sputtering targets formed of Fe-Al-Si alloys but do not disclose the claimed composition of the target.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The art cited disclose magnetic recording materials comprising Fe, Si and Al.
